Alvin Ghindăoanu.

Industrial Engineering & Business student

Bucharest, Romania alvinmarc17@yahoo.com

PROFILE

I study engineering and business side by side, and I learned to perform under pressure on the tatami: 13 years of Shotokan karate, three world titles and a European one. Travelling to national and international championships from an early age made me independent early. I learned to organise my own time, to answer for my own results and to stay composed when it counts.
